

# ***"And they came to the land of milk and honey"***

**PROJECT:** Aliyah as a Jewish Experience: Promotion of Aliyah and receiving ten new immigrant families from Argentina and Brazil with support for each one through the challenges of becoming part of the Israeli community.

## **OBJECTIVES:**

- 🕒 To promote aliyah in Argentina and Brazil.
- 🕒 To provide assistance and support to the new immigrants, upon arrival, including soldiers and single parent families.
- 🕒 To facilitate full integration of immigrants into the community and Congregation Eshel Avraham.
- 🕒 As a Zionist congregation, Eshel Avraham opens its doors to welcome the new immigrants and help them become absorbed into Israeli society.

## **IMPLEMENTATION PLANS:**

- 🕒 Congregation Eshel Avraham will work in cooperation and partnership with the Jewish Agency for Israel and the Municipality of Be'er Sheva, Masorti Movement in Israel; and the Ministry of Absorption to develop a program for the promotion of aliyah and ultimate absorption of the new immigrants.
- 🕒 Special aliyah coordinator and volunteers will accompany the new immigrants on their first important steps in Israel, helping them make essential purchases, enrolling children in schools, looking for apartments, signing contracts and more.
- 🕒 Our efforts will be focused on the personal welcoming and "twinning" the new families with member families who will help guide and answer the multitude of questions and concerns.
- 🕒 We will strive to bring the families closer to Jewish customs and traditions, thus adding to their feelings of successful absorption.
- 🕒 Congregation Eshel Avraham will grow and increase its membership.
